The 8 Brokens, 2018-11-08 A rediscovery and appreciation of an intriguing form of Chinese painting in the late 19th and early 20th centuries that encoded messages about modern society in realistic depictions of fragments from China's past. Developed during the mid-19th century in China, the *bapo* 'eight broken' painting genre combines ingeniously realistic depictions of antique documents, such as calligraphies, rubbings, paintings, and pages from old books, sometimes alongside everyday contemporary ephemera including advertisements, receipts, and postmarked envelopes. The resulting seemingly haphazard, overlapping compositions contain coded reflections on the decay of cultural traditions, or wishes for the recipient's good fortune. This book explores the origins of *bapo* in Chinese visual culture and traces how it blossomed into an intriguing and inventive tradition in the hands of many artists.

New Perspectives on the Cultural Revolution William A. Joseph,Christine P.W. Wong,David Zweig,2020-10-26 Since the Cultural Revolution, data have been uncovered to illuminate that tumultuous decade. In this volume 13 scholars examine the gap between the ideology of the Revolution and the harsh and contradictory reality of its outcome. They focus particularly on the violence, coercion, and constant tension between the need for centralization to enforce policies and the need for decentralizing decision-making if those goals were to be achieved.

Debating Political Reform in China Suisheng Zhao,2014-12-18 The growing disconnect between China's market-oriented economy with its emerging civil society, and the brittle, anacronistic, and authoritarian state has given rise to intense discussion and debate about political reform, not only by Western observers, but also among Chinese intellectuals. While some expect China's political reform to lead to democratization, others have proposed to strengthen the institution of single-party rule and provide it with a solid legal base. This book brings the ongoing debate to life and explores the options for political reform. Offering the perspectives of both Western and Chinese scholars, it presents the controversial argument for building a consultative rule of law regime as an alternative to liberal democracy. It provides several critiques of this thesis, and then tests the thesis through empirical studies on the development of the rule of law in China.
